Memorandum

TO: BATA Oversight Committee

DATE: July 2, 2014

FR: Executive Director

W. I. 1256

RE: Contract Amendment – On-Call Construction Management Services: San Francisco-Oakland Bay Bridge East Span Replacement Project: Hatch Mott MacDonald (\$950,000)

This item would authorize a contract amendment with Hatch Mott MacDonald (HMM) for on-call construction management services for the San Francisco-Oakland Bay Bridge (SFOBB) East Span Replacement Project in an amount not to exceed \$950,000.

Background

In January 2014, after a competitive procurement, this Committee authorized the Executive Director to enter into contracts with a pool of eight firms, including HMM, to provide on-call construction management services. The Request for Qualifications (RFQ) that governed the selection specified that BATA could directly assign work to a particular firm based on the nature of the work, expertise and availability of the firm and staff of firm or could conduct an informal procurement among qualified firms to assist in assigning work.

Contract Amendment Request

HMM was part of the joint venture consultant team that provided program oversight support over the Toll Bridge Seismic Retrofit Program to BATA that expired last year. Due to their extensive experience and prior knowledge of the technical issues on the San Francisco-Oakland Bay Bridge (SFOBB) East Span Project, staff recommended direct assignment of HMM as most qualified to provide project oversight and technical support to BATA and executed a contract with HMM for \$100,000 under Executive Director delegated authority. Staff is requesting an amendment, in an amount not to exceed \$950,000, for continued construction management and technical support for the SFOBB East Span Project.

Given the on-going questions raised on the bridge by the media and other parties, staff is proposing to maintain HMM support on the east span project at least through FY 2014-15. Project oversight duties include providing limited project support staff for construction scheduling, review of construction claims, and preparation of quarterly program reports. Technical support includes providing expert support to review and respond to issues and questions on, including but not limited to, use of A354 Grade BD Rods, fabrication, welding, and maintenance.

Recommendation

Staff recommends that this Committee authorize the Executive Director or his designee to negotiate and enter into a contract amendment with HMM to provide continuing project oversight and technical support for the San Francisco-Oakland Bay Bridge East Span Replacement Project through FY 2014-15 in an amount not to exceed \$950,000.
